

Specification - Droughtmaster[®] Mulch

Product Category
Quality system

Mulch
AS 4454 – 2003

Formulation

Forest Fines[®]
Botany Humus[®]

Particle Grading

15mm minus

Analysis

Physical

Organic Matter (%)	45-55
Bulk Density (kg/l)	0.4-0.6

Chemical

pH	6.0 – 7.0
EC (dS/m)	<0.45
Total Nitrogen (%)	<0.4
Calcium (%)	<0.5
Magnesium (%)	<0.2

General Information

This is a multipurpose blended soil conditioner & mulch, with added wetting agent to assist in building soil water holding capacity. It is a 100% recycled product derived from wood waste and composted green waste. This product is designed to add fine organic matter to build soil structure whilst retaining larger particles of mulch to suppress weed growth.

Mulching is most effective when applied to a depth of no less than 100mm. For more detailed information regarding this or any other mulch product, please consult one of our qualified horticulturists.

NB: Material Safety Data Sheets are available on request.
