	Ca (mg/l)	100-200
	Mg (mg/l)	40-80
	Fe (mg/l)	25-50

General Information:

Vine-mulch is a 100% recycled mulch manufactured from composted green organics. This is a relatively low nutrient organic mulch designed to suppress weed growth and retain moisture without interfering with the strict fertilization practices operating in vineyards and other intensive cropping situations. Vine-mulch should be applied to a depth of 75mm. Repeat applications may be required every 4-5 years. For more detailed information, please consult one of our qualified horticulturists.
